Non-Profit Exhibitors - 2008 Wooden Boat Festival

Center of Excellence for Marine Manufacturing & Technology at Skagit Valley College Whidbey Island

<http://www.marinecenterofexcellence.com>

The Center of Excellence for Marine Manufacturing & Technology is designated as a statewide leader in specialized workforce education and training for the boat and ship building repair and refit industries. Serving as a point-of-contact and resource hub for industry trends best practices innovative curriculum and professional development the Center works with and supports all areas of the industry from the traditional crafts to emerging and green technologies. The focus of the this year's display will be the linkages between traditional and modern building techniques and the educational programs supporting both.

Great Lakes Boat Building School

<http://www.greatlakesboatbuilding.org>

The Great Lakes Boat Building School offers hands-on learning in woodworking lofting traditional wooden and composite wooden boat building yacht joinery and repair and restoration. This nine month full-time boat building program prepares students for career opportunities in the boat building and restoration industries. In addition to being the only licensed boat building school in the Midwest the School has an articulation agreement with North Central Michigan College that allows students to graduate with an Associate Degree in Wooden Boat Building. This combination of basic NCMC business and technology courses with the GLBBS curriculum will provide additional layers of entrepreneurial and management skills to our students.

Jefferson County Marine Resources Committee

<http://jcmrc.blogspot.com>

Marine Carpentry at the Wood Construction Center/SCCC

<http://www.woodconstruction.org>

Teaching marine carpentry and boat building continuously since 1936.

Northwest School of Wooden Boat Building

<http://www.nwboatschool.org>

The NWSWBB teaches skills & crafts for fine wooden boatbuilding and maritime arts.

People For Puget Sound

<http://www.pugetsound.org>

People For Puget Sound is a citizens' group established in 1991 by Kathy Fletcher to protect and restore the health of our land and waters through education and action. The Wooden Boat Festival is the focus of our Summer 2008 outreach program. In our booth we will be showcasing our successes advocating for Puget Sound and engage the public to take specific action to further our mission (volunteer donate and be an activist). Join us and together we can Save Our Sound.

Point Wilson Sail & Power Squadron

<http://www.pointwilson.org>

Point Wilson Sail & Power Squadron is the Port Townsend squadron of the US Power Squadrons. Our mission is to provide boating classes for the WA Boating Card and vessel safety checks. We promote boating safety and advanced courses to our members. We welcome all types of boaters.

Port Townsend Marine Trades Association

<http://www.ptmta.org>

PTMTA members consist of a wide variety of highly skilled marine trades people in the Port Townsend and Jefferson County WA State. The mission of PTMTA is to provide a collective voice for those individuals and businesses making their living in the marine trades within Jefferson County and to promote the economic well being of our community. For those wishing to bring a boat to Port Townsend for repair you will find an alphabetical list of businesses an index of services and websites.

Port Townsend School of Massage

<http://www.massageducation.com>

The mission of Port Townsend School of Massage is to create and provide a thriving learning community which fosters excellence in natural therapies. The commitment to recognizing supporting and enriching each individual is an integral part of our program. Our 650-hour Weekday (M-T-W) Professional Licensing Program is perfect for the student with more time to dedicate to school and/or for those who wish to finish in under one year. Our 545-hour Weekend (F-S-S) Professional Licensing Program is idea for the student who needs to work full time or has family commitments and/or activities that interfere with a weekday program. Upon completion of all coursework the student is eligible to take the State Licensing Exam.

Port Townsend School of Woodworking

<http://www.ptwoodschoool.com>

The Port Townsend School of Woodworking founded by Jim Tolpin, John Marckworth and Tim Lawson offers courses on woodworking cabinet making furniture making historic preservation and traditional woodcrafts. The School is located in the Old Power House at the heart of Fort Worden State Park in Port Townsend.

Port Townsend Yacht Club

<http://www.porttownsendyachtclub.org>

The Purpose of the Port Townsend Yacht Club is to serve the interests of boat owners to defend such owners against discriminatory legislation and burdensome taxation to prevent the pollution of neighboring recreational waters and to stimulate a greater interest in boating among all citizens in the area served by the club.

Puget Soundkeeper Alliance

<http://www.pugetsoundkeeper.org>

Puget Soundkeeper Alliance actively patrols and monitors the waters of Puget Sound the only environmental group to do so. We enforce the Clean Water Act through legal action. We pursue the Clean Water Act's goals through active engagement with business government agencies and citizens. We get involved at many levels of government and legislation to toughen pollution standards. We create partnerships with business to help reduce pollution.

Sound Experience

<http://www.soundexp.org>

Sound Experience sails the historic schooner *Adventuress* to help people discover Puget Sound and learn from its majesty and vulnerability. We use the ship as a metaphor for our planet: a closed system that requires understanding and care and sails best when all aboard are working together. Our focus is educational because we believe that people will protect what they learn to value. As they voyage through the Puget Sound basin Sound Experience participants are encouraged to realize that their daily actions make a difference. And they respond with a growing spirit of cooperation community stewardship and responsibility.

Tethys Offshore Inc.

<http://www.tethysoffshore.com>

Sailing instruction and International Sail and Power Association (ISPA) certification beginner to offshore by two-time circumnavigator Nancy Erley. Special focus on small groups of women (3 max) as learning crew aboard *Tethys* in the Pacific Northwest. Courses for men and women on the learner's boat. Offshore deliveries and Onboard Advisor for ocean passages.
